

Teacher Workshops & Other Opportunities 2019-2020 School Year

Junior Solar Sprint & Car Building

Learn how to build solar cars and implement a successful **Junior Solar Sprint (JSS) project** during this six hour workshop. Explore strategies that veteran JSS teachers and mentors have used to create winning teams. Free solar car kits are available to qualifying schools.

Workshop Dates: November 9, 2019, June 16, 2020 & July 14, 2020

See registration information below. Space is limited.

Solar Cooker Construction & Use

This six hour workshop provides teachers with hands-on experiences and tools to implement solar cooker design projects in their classrooms and prepare for Solar Energy Cook-off events.

Workshop Dates: January 25, 2020, June 17, 2020 & July 15, 2020

See registration information below. Space is limited.

STUDENT EVENTS

Regional ENERGYWHIZ Expos

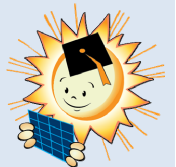

Event Areas Include:

- Tallahassee
- West Palm
- Brandon, FL

More Info - Coming Soon!

Statewide ENERGYWHIZ

April 25, 2020 at FSEC

Other Activities

Feb. 15, 2020 - SECME, Orlando

University of Central Florida Main Campus

Feb. 29, 2020 - FL Regional Middle School
Science Bowl, FSEC

Cocoa, FL 32922

Intro to Solar Energy - October 24, 2019 at FAST Conference

This 3 hour workshop provides resources and experiences to easily implement solar energy content and includes hands-on experiments covering solar concepts and photovoltaic technologies. Also offers ideas for renewable energy-focused student projects. All materials are aligned with the Florida Standards. Learn how to get your free \$600 kit of materials. \$5 to reserve a space.
