

Parcel/package Receiving – Germ Exposure Prevention

Consider the following as extra precautionary methods to prevent the spread of germs (including *Human Coronavirus*) by handing carrier/mail packages and envelopes:

Site-based Custodian can create disinfectant spray w/standard germicidal Products for individual school offices.

Place/rotate packages in direct sunlight if/where applicable. BPS standard products kill *Human Coronavirus*.

BPS Carrier-driver Staff have individual disinfectant spray dispensers/product.

BPS Parcel Receiving Sites (i.e. Warehouse, Satellite-receiving Sites, & ESF Mail Room) are provided with bulk disinfectant products.

U.S. Postal Service: April 2, 2020 - Media Statement Pertaining to COVID-19

<https://about.usps.com/newsroom/statements/usps-statement-on-coronavirus.htm>

(Excerpt)

Importantly, the CDC, the World Health Organization, as well as the Surgeon General have indicated that there is currently no evidence that COVID-19 is being spread through the mail.
