This Dashboard accounts for cases that were reported when BPS schools and offices were closed for the two week-long winter break, as well as current/new cases reported since the return to school (this week). *In collaboration with the Brevard Department of Health, BPS remained responsive to our families throughout the winter break by recording cases, conducting contact tracing when schools were impacted, and notifying families as appropriate. The majority of the quarantines in this report are reflective of cases and contacts to cases that occurred over the break period and have extended into the start of the new year.*
