

Lewis Carroll Elementary

Grades: K-6

Enrollment:
570

Mission: The mission of the Lewis Carroll Elementary School is to create positive connections with students so they believe in themselves and go on to become future leaders in their homes and in the community.

Vision: Our vision at Lewis Carroll Elementary School is to create a brain-compatible environment where students can achieve their personal best both academically and socially. Parent and community involvement are critical to the education of each child. Teachers facilitate learning by creating a nurturing environment and providing a diversity of experiences that are assessed in equally diverse ways. Students take responsibility for their behavior and learning; their personal best is defined by LIFESKILLS. By achieving academic and personal excellence, students can become contributing members of the community.

PRINCIPAL:

Jenifer Born

Describe the culture of Lewis Carroll Elementary:

At Lewis Carroll Elementary, we believe that our role as educators is to teach the whole child. Students must be held to the highest standards of academic performance in reading, writing, science, social studies, and math, but they also need to learn how to resolve conflict, problem solve, cooperate, collaborate, and to contribute in meaningful ways. As a result, our Lewis Carroll Elementary students achieve academically, progress socially, and become active participants in their own growth as learners.
