

Manatee Math Superstars

Manatee Elementary offers an optional enrichment Mathematics program to enrich our students beyond the classroom setting. The program is optional for all students and is run by parent volunteers.

The weekly sheets have problems that vary in difficulty and each problem is assigned a star value. Students accumulate points for each correct answer and earn prizes throughout the program.

We value parents helping their students understand the skills and concepts, but the work should be done by the students independently.

The Math Superstars worksheets may be printed from our school website under the Clubs & Activities tab. This program is self-paced, and worksheets are turned into the classroom teachers.
