

Hello Cocoa Beach Families,

We have made it through the first few days of school and are settling in to a routine.

Student Planners

Last Friday in Homeroom we issued every student a school planner. The planner has a lot of useful information in it about school rules and regulations, but more importantly we really do expect the students to use the planner to help them prioritize and organize their work. I encourage you to check with your student about the planner and its use.

Lunch

We made one adjustment to the lunch assignments and now the lunches are balanced. Everyone has plenty of time to get through the lunch lines and eat their lunch.

Car Rider Drop-off and Pick-up

We want to thank everyone for their patience as we implemented these changes to the system. We have developed some routines now and both parking lots are clear in about 15 minutes. Safety was the main reason for the switch. In the past, having car rider pick up and student driver dismissal in the East parking lot was not safe. There was also an unsafe situation for our bike riders. This eliminates those issue and also allows us to get the bulk of the car line off of Minutemen Causeway.

Emergency Drills

We will conduct Emergency Drills this Friday during Homeroom. We share this with you so that if you see emergency vehicles here on Friday that you know it is part of the drill.

Heart Screening

This Friday, the organization *Who We Play For* will be here on campus to provide “ECG heart screenings” to any of our students enrolled in HOPE Classes. This is optional and is only for students in HOPE classes. I have attached the details about this for families who have a student in HOPE classes.

Thank you for choosing Cocoa Beach. Please reach out if you ever have any questions or concerns.
