

Hello Cocoa Beach Families,

This morning we completed our last large-scale state assessment for a while. There will be some make up tests and smaller groups of students testing, but we should not have another major test event until after Spring Break.

Bus Transportation Tracking System: The school district has implemented a software system that can provide real time tracking of bus transportation. Utilizing GPS tracking of the school bus and the student ID cards, the system can tell us when and where buses are, and who is on them. If your child rides the bus, please ensure that they using their ID card (or manually entering their student number), when getting on or off of the bus. If you have questions about the program please contact transportation. Here is info about the system: <https://www.brevardschools.org/Page/7430>

8th Grade Field Trip January 25: The school district sponsors a field trip for every 8th Grade student in the county to the Moore Justice Center in Titusville. Our 8th Grade students will go on January 25th. We need a few more chaperones. You don't need to be the parent of an 8th grade student to chaperone but you do need to be cleared volunteer. If interested in serving as a chaperone, please contact Mr. Rhyne. Rhyne.Kevin@brevardschools.org

IB Parent Connect – January 26: Next Thursday morning, Mr. Kellam and Mr. Moyer are hosting an IB meeting for parents. This is the time to ask any & all questions about the International Baccalaureate Programme. Your child does not have to be enrolled in IB for you to come. The event will be from 7:45 am to 8:30 am (before school).

Thank you for choosing Cocoa Beach Jr/Sr High School. As always, if you have any questions, please contact me.

Mark J. Rendell
