

Hello Cocoa Beach Families,

Welcome to 2023 and welcome back to school! That is right – we are back in school tomorrow! We hope everyone is rested and ready to get back to work.

Thursday & Friday: We have 2 full school days this week. This Friday is a full day, ending at 3:30 pm. Also, to make up some time from the Hurricanes, we are still in First Semester through Wednesday, January 11th.

ELA Progress Monitoring Test 2 – January 12: On Thursday, January 12th we will administer the English Language Arts mid-year assessment (Progress Monitoring 2) to all 7th through 10th Grade students. Everyone will start the day in Homeroom. Homeroom will be our testing period and will last 125 minutes. We will have an adjusted schedule which I will share next week. All students will remain in Homeroom for the extended period. It is very important that all 7th – 10th Grade students are in attendance on the 12th.

Math Progress Monitoring Test 2 – January 17: On Tuesday, January 17th we will administer the Math mid-year assessment to 7th and 8th Grade students, not enrolled in Algebra 1. This is a much smaller group of students. Right now we plan to utilize the extend Homeroom schedule, but may reconsider that. We will let you know.

New Semester Classes: Second Semester officially begins on January 12th. As stated earlier, we will start that school day in Homeroom. So, we will distribute paper copies of Second Semester schedules to all students in Homeroom that morning. Students will actually be able to view their schedules in FOCUS prior to that date.

Soccer Fundraiser – Bingo: In coordination with the Elks Lodge, our Soccer Booster Club is hosting a Bingo Fundraiser at the Elks Lodge on Saturday, January 14th. It is from 6:00 pm – 8:00 pm. There is food available, raffle prizes, and Bingo cards are only \$1 dollar each.

Thank you for choosing Cocoa Beach Jr/Sr High School. As always, if you have any questions, please contact me.
