

Hello Cocoa Beach Families,

I wanted to let you know that we have had our first experience with COVID 19 at Cocoa Beach Jr/Sr High School. It involved a very small number of students and we have contacted each of the students and staff members that are directly impacted. I have attached a letter that has more details. Again, anyone that is directly impacted has already been notified.

I want to thank everyone for their efforts so far. We must continue to follow the health and safety guidelines in place; practice social distancing, wear a mask/covering when appropriate, and wash our hands frequently.

If you have any questions, please do not hesitate to contact me.

Mark J. Rendell
