

### Parental Consent for Healthcare

As required by F.S. 1014.06(1), parents or legal guardian must authorize healthcare services to be provided for their child by a healthcare practitioner or their delegate, as defined in F.S. 456.001 and 1006.062, should the need arise for such treatment, while their child is under the supervision of the school.

A “yes” response will authorize such treatments including, but not limited to major or minor injury or illness reported or observed while the child is at school. This does not authorize the dispensing of medication or school screenings such as vision, hearing, scoliosis, or height and weight. These services require a separate consent which was included in the original registration paperwork.

Failure to respond will result in an indication of “no” for healthcare treatment.

A “no” response will result in calls to the parent or guardian for the child to be picked up for all medical concerns. This will be for all instances where students are feeling ill have a headache or injuries such as cuts, scrapes, bumps, or bruises. EMS will be called for any situation deemed serious.

Do you authorize healthcare services?             Yes             No
