

## SUMMER MATH KIT CHALLENGE

My child \_\_\_\_\_ participated in the Summer 2021 Math Kit Challenge.

Did your child enjoy the activities in the kit? What was their favorite activity?

What other activities would you like to see if we send home future at-home kits?

We will look at the end of school year data 2020-21 and compare it to their beginning of the school year data 2021-22 to see if these activities supported your child in beating the Summer Slide. We look forward to seeing growth in your child's math skills while enjoying the activities provided!!

### HERE'S YOUR CHALLENGE -

Each time your child completes an activity please initial the activity box on the calendar and return the calendars to your teacher the first week of school (by August 13<sup>th</sup> 2021).

For every 10 activities completed, your child will be entered into a drawing for a chance to win a token for our BOOK VENDING MACHINE.

Please print:

Student Name \_\_\_\_\_

Parent Signature \_\_\_\_\_
