

Name: _____

Using Keywords on the Internet

A. For each of the information requests below, give an example of both a good, efficient way to search and an inefficient way to search for information on the Internet. Answer on a separate sheet of paper.

Example:

You need to find out what people in Korea eat.

Effective search: popular Korean food

Ineffective search: What do people in Korea eat?

Now You Try:

1. You need to find out what languages people in Kenya speak.

Effective search:

Ineffective search:

2. You need to find out what former President Bill Clinton's middle name is.

Effective search:

Ineffective search:

3. You need to find out the name of the theme song from the movie Coco.

Effective search:

Ineffective search:

B. Write three possible topics that you might want to research for your project. Under each topic, list some of the keyword combinations that you might use when you first begin your research.

1. Topic:

Some keyword combinations I can try:

2. Topic:

Some keyword combinations I can try:

3. Topic:
