Hit the pavement from home!

Making Strides On the Go is an interactive "walk where you are" event for supporters and survivors to experience from the comfort of their own neighborhood – including music, live programming and the ability to chat and share selfies with Striders from across the country in real time.

We are excited to bring the Making Strides movement to all participants by offering this personalized and inclusive experience closer to home, for supporters who are unable or not comfortable joining a large public event at this time.

Sign up online for Making Strides now and choose your event experience later: **in-person walk, Making Strides On the Go** or "fundraise now, decide later."

We'll send updates about both our in-person and Making Strides On the Go option, so you can decide what works best for you closer to the actual event date.

Choose your date!

October 17, 24 and 30 beginning at 11 a.m. ET, and available on-demand through November 12.
