Cambridge Families,

How do you want your child to participate in school next year? The link below is for a survey for a program called BPS/Cambridge eLearning at Home.

BPS/Cambridge’s e-Learning design offers a safe, alternative extension of your elementary school. This educational option is robust and provides an equivalent experience to the traditional classroom. Children will learn and collaborate with their peers and teacher in a virtual platform. Educational excellence and high expectations remain through the eLearning option.

This program will be different than the distance learning which took place in March-May. It will include a daily required schedule & live instruction from a Cambridge teacher.

This survey needs to be completed for EACH child in your family/household.  https://forms.gle/eENEfUvfCLtwcgqL6

Please take a few minutes to complete this survey today so we can begin to plan appropriately.
