ALEKS is a research based, online learning program. ALEKS helps students master course topics and bridge learning gaps.

ALEKS creates an individual learning path based on the needs of each student. After each knowledge check, students can see skills they have mastered on their ALEKS Pie. The goal is for each student to fill their ALEKS Pie with mastered skills. Students' complete topics they are Ready to Learn based on their individual learning path. Each Ready to Learn topic provides examples, explanations, and practice. Once a topic is mastered, the ALEKS Pie will update.

ALL students have access to ALEKS on their launchpad.

ALEKS is located in the BPS McGraw-Hill App. Students will click BPS McGraw-Hill, then click on ALEKS.

Once the student is in ALEKS, they will click on "Continue My Path".
