

The safety and security of students and staff will always be our top priority at Port Malabar Elementary School. With that in mind, we consistently look for ways to improve school security.

We have already implemented the **District Security** procedures that require all exterior doors to be locked. We will now also be locking the front office doors. Please knock on the front door and wait to be buzzed in by our office staff. Thank you for your understanding and for making safety and security a priority.
