

## A NOTE FROM THE DISTRICT

The Space Coast Transportation Planning Organization needs your help to make students' routes to school safer. Safe Routes to School programs aim to make it safer for students to walk and bike to school and encourage more walking and biking where safety is not a barrier. Not only does walking and biking to school limit traffic congestion, but studies also show that the exercise experienced by walking or bicycling to school helps students perform better on their school work.

**We would like to hear your thoughts on walking and bicycling to school.**

**Please take 5-10 minutes to complete the Safe Routes to School Survey to help us improve your child's route to school. Your input is so extremely valuable!**
