

Parent/Community Involvement Opportunities K-12 Mathematics Instructional Materials Adoption

Brevard Public Schools (BPS) is committed to fostering high-quality learning experiences which students need to ensure a solid K-12 mathematics education. The upcoming instructional materials adoption cycle for mathematics is an opportunity to select high-quality instructional materials for the beginning of the 2019-2020 school year.

Brevard Public Schools is inviting parents/community members to provide input for the selection of Mathematics Florida Standards (MAFS) aligned instructional materials. There are four opportunities for parent/community input. Three of these are to provide input in person or via a survey. The fourth involves serving as a member of the Brevard Instructional Materials Review Team. Participating in the instructional materials review process is a powerful opportunity for teachers, administrators, parents, and community members. If interested, please see the meeting dates and application link below.
