Top Ten Activities to Boost the Holiday Learning

10 If you travel over the holiday break, have your child record new sights and experiences from his/her trip.

9 If you go out to eat during the break, have your student use estimation skills to figure out the bill.
Ex. Chicken Tenders may cost $5.75 which is close to $6.

8 Pick a book and read out loud each night as a family.

7 Have your child write a Thank You card for a gift they received.

6 Make flash cards out of index cards, and help your child make multiplication or addition flash cards to help with fact fluency.

5 Talk with your child about places you visit, work you do, books you read, or television programs you watch together.

4 Let your child design and write a menu for a family dinner.

3 Use a deck of cards and practice fact fluency by turning over 2 cards and either adding the numbers or multiplying them together.

2 Have your child write letters to family or friends.

1 Encourage your child to read, especially things he or she chooses, and let your child see you read.
