This laptop has been set up with a local user account and it has been set up to automatically log in once powered on. If you shut the lid or lock it, you will have to enter the password to log back in. You can press and hold the Power Button located on the right side of the computer to force it to shut down and press it again to restart and automatically log you back into the computer.

**User ID:** Local  
**Password:** 123456789A!

To charge plug the rectangular yellow end of the power cord into the Power connector located on the left side of the computer towards the back (1). It is similar in size and shape to the USB connector (3). Be careful not to plug it in to the USB connector. See below.

To connect to your WiFi click on the world icon at the bottom right, find your WiFi network, click Connect, Enter Password if you have one and it should be set. Contact your internet provider if you are unable to connect the device.

Once connected to internet use the “Accessing Launchpad for At Home Learning” directions.

When finished, Sign Out of Launchpad.

Shut Down and Charge.
