Big news at Croton!

As part of our school’s growth, we have added a new Science Lab which will allow more hands-on experiences with science, as well as more in-depth scientific based discussions. Please feel free to contact Mr. Englert if you have any questions related to the scientific processes.
Cardinal Conversations were a success last school year, and we are pleased to announce that we will continue with them this school year. The purpose of these meetings is to provide our Croton Community Members with an opportunity to share their viewpoints on school-wide issues/concerns. This will be a time to come together and problem solve and/or enhance the operations of the school. If you are interested in joining us, we are looking forward to our first gathering on Monday, September 30th at 8:45 in the Solarium.
