

# General Knowledge Security Agreement

Professional Learning and Development has partnered with Test Camp and 240 Tutoring to offer online study materials for the General Knowledge Exam.

Both programs are self-paced and allow you to learn and practice fundamental test-skills online, on any device, at any time.

**Test Camp** offers online courses, which include test-skills training and varied attempts at quizzes and tests with results by competency. The program also offers a Campsite Counselor, a subject-area and testing skills expert, ready to assist you at any time. We have purchased a MasterPass for the program.

**240 Tutoring** study guides are comprehensive reviews of the ideas and concepts of each exam. The program includes a diagnostic test and report, vocabulary review, instructional content, multiple quizzes, and a practice test. After the 30 day free subscription, you will be able to join for a discounted price of \$20 per month.

By signing this form you agree to the following criteria:

- I will not share the MasterPass log-in credentials
- I will not hold BPS, 240 Tutoring or Test Camp liable if I am not successful with the tests/exams
- I will complete the course work as assigned to help prepare for the tests/exams
- Utilization will be monitored to provide feedback as we determine return on investment

If the Test Camp program is used correctly, it will help you be successful in passing the General Knowledge Test, Elementary Education K-6, and/or Professional Education Certification Exam.

Once this form is signed and returned (courier or scanned) to Lisa Stanley, Department of Professional Learning and Development, you will receive a Test Camp MasterPass as your log-in credentials. You will also receive a link directing you to 240 Tutoring to create your own log-in credentials.
