

The School Advisory Council (SAC) is composed of parents (elected by parents), teachers (elected by teachers), and the principal. The committee formulates an on-going school improvement plan which is based on a needs assessment and which targets the Florida's System of School Improvement and Accountability. The SAC committee meets the second Thursday of each month at 3:00PM in the Media Center to review various aspects of our school's curriculum and programs, to monitor progress in accomplishing the restructuring plan's goals and objectives, and to discuss issues of interest or concern. Meetings are open to the public.
