

How to Find Reading Courses on Your ProGOE transcript

A teacher may have taken a reading class or two during college or even taken some through our county endorsement program. Anyone entering BPS after 2006 should have been reviewed for any possible reading courses taken at the university and that information would have been added to your ProGOE transcript record. If you want to see if you already have some reading credits that could apply toward reading endorsement, please follow the directions below. Remember, courses **take prior to July 1, 1998 cannot count toward reading endorsement.**
