# **International Career Program**

---

## **Melbourne High School**

---

An International Baccalaureate  
Career Programme Academy

Admission to the Career Program at Melbourne High School for out of area students is through the Career and Technical related studies

Application:  
<https://www.brevardschools.org/site/Default.aspx?PageID=2381>

## What is the International Career Program?

The International Career Program at MHS is a Brevard Educational Program Opportunity that creates a practical application for career and technical education courses. Students not zoned for Melbourne High School must apply on the district web site to a CTE program of study.

<https://www.brevardschools.org/site/Default.aspx?PageID=2381>

## What makes the Career Program at MHS unique?

- Integrates academic and practical learning by developing essential skills
- Use current technology
- Earn Industry Certification
- Relevant experience through Internships and Service Learning
- Student centered education
- Earn college credits
- Earn

*“For students who want to complement traditional learning with the practicality of career-based studies, the IB career-related program could be a good option. Few educational programs offer the invaluable combination of the theoretical knowledge and real-world application.”*

- US News and World Report
