FIELD TRIP

PROCEDURES

To insure that we are in compliance with USDA State and Federal Rules and Regulations and in an effort to minimize the work load on days when there will be field trips, Food and Nutrition Services (FNS) has established the following procedures:

- Food Safety is our #1 priority! It is the responsibility of the teacher to ensure that all field trip lunches are kept in coolers at 40 degrees F or below.
- Teachers must notify the cafeteria manager at least two weeks in advance of the field trip so they can preplan.
- Cafeteria Managers will provide to the teacher a memo "Helping Us....Help You" to be sent to the parent along with the "Field Trip Consent" form which allows the parent to select the lunch menu for that particular day.
- Homeroom teachers should provide the lunch count for meals needed for the field trip one week prior to the scheduled date. The lunch count should indicate the number of each of the sandwich and milk choices needed. (see the Field Trip Menu).
- Elementary Schools: The manager will print a "Customer Roster Report" by selecting the individual grade and then the respective homeroom(s). Secondary Schools: If unable to use the Customer Roster Report by grade/homeroom, then the manager should create an "Off Site Feeding Form" listing all students attending the field trip
- Lunches will be prepackaged, labeled (by type of sandwich) and stored in a cooler based upon the lunch totals requested by the homeroom teacher.
- At the time of the meal service, the student will state their first and last name to the teacher. Using the roster or the off-site feeding form provided, the teacher will check off the student name as the meal is given to the each student. The teacher must sign the roster/off-site feeding form, date (with time), indicate the type of meal served (i.e. Lunch) and return the roster/off-site feeding form to the Cafeteria Manager the following day for audit accountability. NOTE: Any meals not consumed by students MUST be returned to the cafeteria.

- Upon return of the "Customer Roster Report" or "Off Site Feeding Form", the Cafeteria Manager will then place a check mark by the respective student's name as it is entered into the POS system based on the completed Roster/Off-Site Feeding Form. Cafeteria Manager will verify that the students have been correctly entered into the POS by printing the "Daily Journal" and comparing it to the "Customer Roster Report" or "Off-Site Feeding Form".
- The manager will include all menu Field Trip items on the daily production report.

Brevard County School Food Services

For Pre-K Students

Helping Us.....Help You!

Your child will be going on a field trip _____.

Date

For your convenience, the school cafeteria can provide a lunch for their field trip. The lunch menu for the day will consist of the menu items listed below. Students may select choice between two sandwiches and a choice of low fat white, fat free white or chocolate milk.

Students who qualify for free and reduced-price meals and students with prepaid money in their accounts may use their Student ID number to purchase their lunch. If your child does not have money on their meal account, please send cash for the lunch. The price for Pre-K students is \$1.80.

In an effort to prepare the correct number of lunches, we would appreciate your help in having your child select the sandwich and milk of his/her choice for the day of the field trip. Please check the box for your child's selection, print the student's name and the teacher's name, and return to your child's homeroom teacher.
