Dear Parent or Guardian of [Redacted]:

[Redacted] has taken a Star Reading computer-adaptive reading test. This report summarizes your child's scores on the test. As with any test, many factors can affect a student's scores. It is important to understand that these test scores provide only one picture of how your child is doing in school.

PR	Range
97	95-98

938
Scaled Score

[Redacted] Scaled Score is based on the difficulty of questions and the number of correct responses. Scaled Scores in Star Reading in the Unified scale range from 600 to 1400.

97
Percentile Rank

[Redacted] skills are higher than 97% of students nationally in the same grade. This score is above average. The PR Range indicates that, if [Redacted] had taken the Star Reading test many times, most of his/her scores would likely have been between 95-98.

3
Grade Equivalent

GE scores range from 0 to >12.9. Based on national norms, [Redacted] reading skills are comparable to those of a typical 3rd grader at the beginning of the school year. The score does not necessarily indicate the ability to read independently at this grade level.

2.7
Instructional Reading Level

IRL is the grade level at which [Redacted] is at least 80% proficient recognizing words and comprehending reading materials. [Redacted] achieved an IRL score of 2.7, meaning he/she is at least 80% proficient at reading second grade level materials.

2.6 - 3.6
(Zone of Proximal Development)

The ZPD spans reading levels that are appropriately challenging for reading practice. [Redacted] should be selecting books in this range for optimal growth in reading. This range is approximate. Success at any reading level depends on your child's interest and prior knowledge of a book's content.

These scores show student reading levels. Not all students will have these in their report.

I will be using these Star Reading test scores to help [Redacted] further develop his/her reading skills for reading practice at school. If you have any questions about your child's scores or these recommendations, please contact me at your convenience.
