Dear Parent or Guardian of [REDACTED]:

[REDACTED] has taken a Star Reading computer-adaptive reading test. This report summarizes your child's scores on the test. As with any test, many factors can affect a student's scores. It is important to understand that these test scores provide only one picture of how your child is doing in school.

Percentile Rank  
[REDACTED] skills are higher than 97% of students nationally in the same grade. This score is above average. The PR Range indicates that, if [REDACTED] had taken the Star Reading test many times, most of his/her scores would likely have been between 95-98.
- 3**  
Grade Equivalent  
GE scores range from 0 to > 12.9. Based on national norms, [REDACTED] reading skills are comparable to those of a typical 3rd grader at the beginning of the school year. The score does not necessarily indicate the ability to read independently at this grade level.
- 2.7**  
Instructional Reading Level  
IRL is the grade level at which [REDACTED] is at least 80% proficient recognizing words and comprehending reading materials. [REDACTED] achieved an IRL score of 2.7, meaning he/she is at least 80% proficient at reading second grade level materials.
- 2.6 - 3.6**  
(Zone of Proximal Development)  
The ZPD spans reading levels that are appropriately challenging for reading practice. [REDACTED] should be selecting books in this range for optimal growth in reading. This range is approximate. Success at any reading level depends on your child's interest and prior knowledge of a book's content.

Essas pontuações mostram os níveis de leitura dos alunos. Nem todos os alunos terão isso em seus relatórios.

I will be using these Star Reading test scores to help [REDACTED] further develop his/her reading skills for reading practice at school. If you have any questions about your child's scores or these recommendations, please contact me at your convenience.
