An out-of-field teacher is a teacher that is qualified to teach, but has not yet met all of the certification requirements specified by the Florida Department of Education for the particular subject(s) he/she is teaching.

Florida Statute 1012.42 requires that parents are notified when their students are assigned to an out-of-field teacher. The Department of Education acknowledges that some particular subjects are difficult to fill and that there are shortages of teachers in particular fields. Employing out-of-field teachers allows schools to meet the curricular needs of all of our students.

If you would like to discuss this with me further or have any questions, please do not hesitate to reach out and contact me. Thank you very much for your flexibility and understanding. My goal is to ensure that all educational needs of the students at Viera High School are met.

Sincerely,

Sarah Robinson
