Student Athlete Code of Conduct and Eligibility Requirements: Name of Athlete: Year: 2023-2024 Philosophy: The Cocoa High School Athletic Program strives to develop all aspects for a well-rounded studentathlete. We hold our student-athletes to a high standard of conduct in and out of the classroom. We work hard to encourage sportsmanship, academic achievement, and physical development for all sports. **Standards and Expectations for Behavior:** 1. Maintain academic eligibility of a cumulative 2.0 GPA. 7th and 9th grades are automatically eligible the first semester of each year. Students only become eligible or ineligible on the 6th school day of each semester. 2. Always display good sportsmanship. 3. A completed Athletic Participation packet must be on file before any participation occurs. 4. Adhere to all Brevard County Schools Code of Conduct policies at CHS and other venues where student-athletes represent CHS. 5. Follow any additional team specific standards and expectations. 6. Athletics is an extra-curricular activity, as such, it is a privilege to participate. Failure to adhere to academic and behavioral policies/standards may result in a suspension from activities. 7. A student athlete must be on campus 4 periods on the day of an athletic competition. If not, they will not be able to participate that day. 8. Continued violations of school rules that result in In School suspension and other violations may result in suspension from participation. 9. If a student is assigned Out of School suspension, they CANNOT participate in any school activities. 10. Any student that has an outstanding financial obligation to CHS will not be able to participate in any activities until this obligation is cleared. 11. At no time will students be on school grounds participating in an activity without supervision by a designated coach or sponsor. 12. If a student is academically ineligible, they cannot participate in any FHSAA competitions. However, it is the discretion of the Head Coach and Athletic Director to allow a student-athlete practice with the team. 13. Student-athletes may be required to pay a fee to participate, this varies from sport to sport. 14. Hazing and initiations are not allowed as they are against Brevard County School Polity, FHSAA and Florida State Law. Your signature below indicates that you have read all parts of this agreement. Failure to comply with any of these guidelines may result in the student athlete's suspension or dismissal from the team.

School:	School District (if applicable):
Sudden Cardiac Arrest Information	

Sudden cardiac arrest (SCA) is a leading cause of sports-related death. Sudden cardiac arrest (SAC) occurs when the heart suddenly and unexpectedly stops beating. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating. SCA can cause death if it is not treated within minutes.

How common is sudden cardiac arrest in the United States?

There are about 350,000 cardiac arrests that occur outside of hospitals each year. More than 10,000 individuals under the age of 25 die of SCA each year. SCA is the number one killer of student-athletes and the leading cause of death on school campuses.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as but not limited to dizziness or light-headedness, fainting, shortness of breath, racing or skipped beats/palpitations, fatigue, weakness, chest pain/pressure or tightness. These symptoms may occur before, during, or after activity. These symptoms can be unclear and confusing in athletes. Some may ignore the signs or think they are normal results of physical exhaustion. If the conditions that cause SCA are diagnosed and treated before a life-threatening event, sudden cardiac death can be prevented in many young athletes.

What are the risks or practicing or playing after experiencing these symptoms?

There are significant risks associated with continuing to practice or play after experiencing these symptoms. The symptoms might mean something is wrong and the athlete should be checked before returning to play. When the heart stops due to cardiac arrest, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who experience a SCA die from it; survival rates are below 10%.

FHSAA Sports Medicine Advisory Committee strongly recommends a medical evaluation with your healthcare provider for risk factors of sudden cardiac arrest, which may include an electrocardiogram.

The FHSAA Sports Medicine Advisory Committee works to help keep student-athletes safe while practicing or playing by providing education about SCA and by notification to parents that you can request, at your expense, an electrocardiogram (EKG or ECG) as part of the annual preparticipation physical examination to possibly uncover hidden heart issues that can lead to SCA.

Why do heart conditions that put youth at risk go undetected?

- Publications report up to 90% of underlying heart issues are missed when using only the history and physical exam;
- Most heart conditions that can lead to SCA are not detectable by listening to the heart with a stethoscope during a routine physical; and
- Often, youth do not report or recognize symptoms of a potential heart condition.

What is an electrocardiogram (ECG or EKG)?

An ECG/EKG is a quick, painless, and noninvasive test that measures and records a moment in time of the heart's electrical activity. Small electrode patches are attached to the skin of your chest, arms, and legs by a technician. An ECG/EKG provides information about the structure, function, rate, and rhythm of the heart.

Why request an ECG/EKG as part of the annual preparticipation physical examination?

Adding an ECG/EKG to the history and annual preparticipation physical exam can suggest further testing or help identify heart conditions that can lead to SCA. An ECG/EKG can be ordered by your family healthcare provider from screening for cardiovascular disease or for a variety of symptoms such as chest pain, palpitations, dizziness, fainting, or family history of heart disease.

- ECG/EKG screenings should be considered every 1-2 years because young hearts grow and change.
- ECG/EKG screenings may increase sensitivity for detection of undiagnosed cardiac disease but may not prevent SCA.
- ECG/EKG screenings with abnormal findings should be evaluated by trained physicians.
- If the ECG/EKG screening has abnormal findings, additional testing may need to be done (with associated cost and risk) before a diagnosis can be made and may
 prevent the student from participating in sports for short period of time until the testing is completed, and more specific recommendations can be made.
- The ECG/EKG can have false positive findings, suggesting an abnormality that does not really exist (false positive findings occur less when ECG/EKGs are read by a medical practitioner proficient in ECG/EKG interpretation of children, adolescents, and young athletes).
- ECG/EKGs result in fewer false positives than simply using the current history and physical exam.

The American College of Cardiology/American Heart Association guidelines do not recommend an ECG or EKG in asymptomatic patients but do support local programs in which ECG or EKG can be applied with high-quality resources.

Removal from play/return to play

Any student-athlete who has signs or symptoms of SCA should be removed from play (which includes all athletic activity). The symptoms can happen before, during, or after activity. Before returning to play, the athlete shall be evaluated and cleared. Clearance to return to play must be in writing. The evaluation shall be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

By signing this agreement, I acknowledge the annual requirement for my child/ward to view the "Sudden Cardiac Arrest" course at www.nfhslearn.com. I acknowledge that the information on Sudden Cardiac Arrest has been read and understood. I have been advised of the dangers of participation for myself and that of my child/ward.

School:		School District	(if applicable):	 	
		Dettool District	to opposedore.		

Attention Student and Parent(s)/Guardian(s)

Your school is a member of the Florida High School Athletic Association (FHSAA) and follows established rules. To be eligible to represent your school in interscholastic athletics, in an FHSAA recognized and/or sanctioned sport, the student:

- 1. Must complete an EL3 for each school at which the student participates; this form is non-transferable.
- 2. Must display good sportsmanship and follow the rules of competition **before**, **during**, **and after** every contest in which the student participates. If not, the student may be suspended from participation for a period of time. (FHSAA Bylaw 7.1)
- 3. Must not provide false information to his/her school or to the FHSAA to gain eligibility. (FHSAA Bylaw 9.1.1.2)
- 4. Must be regularly enrolled in and in regular attendance at your school. If the student is a home education student, a charter school student, an alternative/special school student, a non-member private school student, or a Florida Virtual School Full-Time Public Program student, the student must declare in writing his/her intent to participate in athletics to the school at the student is permitted to participate. Home Education students and students attending a non-member private school must complete additional paperwork prior to participating. (FHSAA Bylaw 9.2, FHSAA Policy 16.6, and Administrative Procedure 1.8)
- 5. Must attend school within the **first ten (10) days** of the beginning of each semester to be eligible during that semester. (FHSAA Bylaw 9.2.3)
- 6. Must maintain at least a cumulative 2.0 GPA on a 4.0 scale (unweighted) prior to the semester in which the student wishes to participate. This GPA must include all courses taken since the student entered 9th grade. A 6th, 7th, or 8th grade student must have earned at least a 2.0 GPA on a 4.0 scale (unweighted) during the previous semester. (FHSAA Bylaw 9.4.1 and F.S. 1006.15(3)a)
- 7. Must not have graduated from any high school or its equivalent. (FHSAA Bylaw 9.4.7)
- 8. Must not have enrolled in the 9th grade for the first time more than eight consecutive semesters ago. A 6th, 7th, or 8th grade student may not participate at any level if the student is repeating that grade level. (FHSAA Bylaw 9.5)
- 9. Must not turn **19 before July 1st** to participate at the high school level; must not turn **16 before July 1st** to participate at the junior high school level; and must not turn **15 before July 1st** to participate at the middle school level, otherwise the student becomes permanently ineligible. (FHSAA Bylaw 9.6)
- 10. Must undergo a **preparticipation physical evaluation** and be certified as being physically fit for participation in interscholastic athletics on a form (EL2) provided to the school. (FHSAA Bylaw 9.7 and F.S. 1002.20(17)b)
- 11. Must have **signed permission** to participate from the student's parent(s)/guardian(s) on a form (EL3) provided to the school. (FHSAA Bylaw 9.8)
- 12. Must be an **amateur**. This means the student must not accept money, gifts, or donations for participating in a sport, or use a name other than his/her own when participating. (FHSAA Bylaw 9,9)
- 13. Must not participate in an **all-star contest** in a sport prior to exhausting his/her high school eligibility in that sport. (FHSAA Policy 26)
- 14. Youth Exchange, Other International, and Immigrant students must be **approved** by the FHSAA Office prior to participation. Exceptions may apply. (FHSAA Policy 17)
- 15. Must refrain from hazing/bullying while a member of an athletic team or while participating in any athletic activities sponsored by or affiliated with a member school.

If the student is declared or ruled ineligible due to one or more of the FHSAA rules and regulations, the student has the right to request that the school file an appeal on behalf of the student. See the principal or athletic director for information regarding this process.

By signing this agreement, the undersigned acknowledge that the information on the Consent and Release from Liability Certificate in regard to the FHSAA's established rules and eligibility have been read and understood.

ELECTROCARDIOGRAM SCREEN (ECG) CONSENT FORM AND RELEASE OF LIABILITY/OPT OUT

An ECG screen (also referred to as an EKG) can help identify young athletes who are at risk for sudden cardiac death, a condition where death results from an abrupt loss of heart function. An ECG screening may assist in diagnosing several different heart conditions that may contribute to sudden cardiac death.

By signing below, I elect to have representatives and volunteers from "Who We Play For" perform an ECG screen for my child. By electing to receive an ECG screen, I acknowledge the limitations of an ECG screen and that sudden cardiac death or other cardiac events may still occur, despite this screening. I further acknowledge that students with an abnormal ECG screen will be required to undergo further testing (e.g. an echo or ultrasound) and/or a medical consultation release prior to being allowed to resume participation in school athletics. By signing below, I hereby indemnify, release, and forever discharge, and waive, any and all claims against The School Board of Brevard County, Florida and "Who We Play For," including each entity's employees, sponsors, trustees, consultants, volunteers, and contractors for all actions related to this ECG screen. In addition, I authorize medical personnel with "Who We Play For" to review the ECG results, and interpret, and use the same for diagnostic and aggregated statistical purposes in accordance with the Family Education Rights and Privacy Act and Health Insurance Portability and Accountability Act of 1996.

I DO HEREBY CONSENT to participation in th For.	e ECG. I understand there is a \$20 fee for this service, payable to Who We Pla
I DO HEREBY CONSENT to participation in th category are eligible for free screening than Foundation, and to the friends and family of	e ECG and our family qualifies for free or reduced lunch status.
