## Instructions for using **FOCUS**

(FOCUS is an online program that contains your child's academic information so you can collaborate with teachers to provide support for your child.)

The Brevard County Public Schools (BPS) is pleased to announce that teachers will use the FOCUS online information system. The FOCUS system offers the user a tailored experience for parents and students, which includes downloadable applications and a portal for parents and students to view information and grades related to each class. After registering your account, use the mobile app. The application is called BPS FOCUS and is available, free, in Apple and Google Play virtual stores.

The parent portal is available to register your account. You will be able to see information about your student as teachers assign homework and post grades. To use the new system, parents must register their account by following these steps:

1. To register your primary account, access the FOCUS registration site, using one of the following two methods:

**Method 1:** Go directly to the FOCUS parent portal site, using the following link:  
<https://brevardk12.focusschoolsoftware.com/focus/>

**Method 2:** Navigate to the BPS home page (<https://www.brevardschools.org/>) and click on "Parents and Students"; then click on FOCUS.

2. To create your new account, you will need the following information:

- Your child's seven-digit student ID number (above)
- Your child's date of birth
- The assigned PIN number

Students will access their new FOCUS portal from LaunchPad.
