

Robo-Call  
Sunday, September 27, 2020

Greetings Longhorns,

- Join the JMS track team. Mr. Langlie is still accepting complete physical packets in room 912, until 4:15p.m. Tuesday, September 29. A determination will be made this week if JMS has enough participants to support a track team.
- Before a student can be an e-Learner, an e-Learning Agreement must be signed and submitted to the front office. It is important to select the best instructional choice for your child and family and maintain consistency. If you plan to change your child's instructional method, it is necessary to speak with a school administrator.
- Students should not be on campus prior to 9:00a.m. and preferably not before 9:20, as supervision is not provided before 9:30. As we continue to follow the BPS reopening plan, guided by the CDC to ensure the safest environment, students are required to wear a face covering upon arriving on school campus.
- It is time to complete and submit the annual Federal Impact Survey. All brick & mortar students should have received and returned their survey by now. If an e-Learner has not received their survey, it can be picked up Tuesday, September 29 from 4:45 – 6:00 p.m. in the bus loop. All surveys can be returned to the front office during school hours or during our designated drop off, Wednesday, September 30 from 5:00 – 6:00 p.m. in the bus loop.
- Invest in your community by voting "Yes" for the Brevard County Sales Surtax. With your vote we can continue our commitment to serve every student with excellence! For specific information regarding JMS's plan to improve security, facilities, and educational technology, visit the JMS school website.
- Shape the future by completing the 2020 Census. Ensure funding for school lunch programs, special education, classroom technology and much more. Respond today by calling 1-844-330-2020 or online at [my2020census.gov](https://my2020census.gov).

Have a great evening
