Parent Input Form
Class Placement for 2020-2021**

Student Name: _____ Current Grade: _____

2019-2020

Current School: _____

We are pleased to receive your input about your child regarding placement for next school year! Please note that requests for specific teachers cannot be accommodated.

Much time and consideration is given to each student's individual needs as well as the structure of the classroom for the best possible placement for ALL students. The following criteria is used to create compatible and balanced classrooms:

- Balance of boys and girls
- Balance of class size throughout the grade level
- Separation of students who do not perform well together.
- Parent input based on academic and social/emotional needs or concerns.

On the checklist below, mark the academic and/or social/emotional concerns you would like considered in your child's placement. **Please note that requests for specific teachers cannot be accepted** because it discounts other important criteria and affects overall classroom composition.
