Community Notice FY24 Renewability and North.docx; Community Notice FY24 RFA New.docx; Brevard After School Academy.docx

Good afternoon,

Brevard Public Schools has submitted applications for RFA and Renewability for a 21st Century Community Learning Center Grant in Cocoa, Titusville, Rockledge, Melbourne, and Palm Bay area schools. The design of the program in the areas will help students meet state and local standards in core academic subjects. Brevard Public Schools will base the program on the assessment of Principal needs survey, school improvement plans and objective data. The program will provide academic afterschool activities which under the parameters of the federally defined program that may target activities in the following areas: Literacy and English Language Arts, Mathematics, Science, Personal Enrichments and Family Member Performance. If your organization is interested in participating in the development of this grant (particularly any key issues that are relevant to the equitable participation of eligible private school students and teachers), please reply to this email.

Additionally, eligible non-public school children who reside within the boundaries of the selected schools may benefit from one or more of the services offered through this Grant. In an effort to reach all eligible children, Brevard Public Schools would like to collaborate with the Private School sector to meet the needs of the students in the community. As the possible sub recipient, Brevard Public Schools would like to offer equitable services to your students, their teachers, and other educational personnel. If you have eligible children and would like to discuss this opportunity further or have teachers and other educational staff that might be interested, please contact us.

The Brevard Before & After School Team is meeting to develop this program and would appreciate additional input. If awarded, our organization will continue to provide timely and meaningful information to the private school sector via email regarding future program changes, operations and continuing applications if funded to operate a 21st CCLC program. If possible, the Brevard Before & After School Team would appreciate it if you could disseminate this information to your faculty and families.

We look forward to the possibility of working with your organization to bring the best possible services to the children of our community.

Teresa Rider
