School Improvement Plan

- Mrs. Smith walked the committee through the CIMS website, which contains our School Improvement Plan, demographics, early warning indicators, and assessment data. This information is what our school leadership team looks at when creating the SIP. Because FSA was not administered during the 2019-2020 school year, FSA scores from the 2018-2019 school year, as well as iReady and Eureka math diagnostics from last year were used to help our leadership team determine what areas we need to address in our SIP for the 2020-2021 school year.

Priorities:

- Standards-align instruction in Math
- Standards-aligned instruction in Science
- Standards-aligned instruction in ELA to include test-dependent writing
- SMART to include ELA and Math
- Academic Support Programs for students demonstrating learning gaps.

Draft of the SIP was due: 9/18/2020

Final SIP due: 11/6/2020

School Events

- Mrs. Smith shared that this week is FTE week, which helps the FLDOE determine enrollment and allocations per student.
- Beef O’Brady’s Spirit Night is 10/20 from 5:00 PM – 9:00PM
- End of the first 9 weeks is 10/23
- Report Cards will be issued – 10/30

Sales Surtax Information

- Mrs. Dufresne shared a PowerPoint presentation from our Superintendent, Dr. Mullins, entitled Our Kids, Brevard’s Future. The slideshow is for all shareholders and contains information about how the half-cent sales tax has been used to repair and update schools (facilities, security, and educational technology). Information about audits and oversight committees, as well as the differences between operating funding and capital funding, and how the half-cent sales tax has benefitted students in our schools. The surtax is up for renewal in 2020, and the Superintendent has shared proposals for upcoming needs between 2020 – 2026. Mrs. Dufresne then shared what this would mean for Enterprise Elementary. For more information, please visit: www.brevardschools.org/SurtaxRenewal.
- Mr. Soares inquired about the security enhancements. Mrs. Dufresne shared recommendations that True North Consulting made as they walked the campus compiling information.
