

Longleaf School Song

Longleaf is the place for me
Where hopes and dreams run free
And we're preparing to be all that we can be.

Caring teachers by my side, to teach, to laugh, to love, to guide
And all the while we're filled with pride
For here we want to be.

We've all a different face, united in one place
But there's one thing that we all know
We're special at this school!

Learning lifeskills everyday,
And making friends along the way
And doing our personal best we find
There are no limits in our mind
And we will learn and grow and shine
Thank you Longleaf we love you!
